PLAIN LONG PANEL

Door Details

- Wood grain embossed, hot-dipped galvanized steel. Pre-finished exterior and interior then coated with baked-on polyester primer and acrylic finish.
 - 26-gauge on Thermal Models
 - 25-gauge on Pan Style models
- Recessed Panel design for thermal models, Raised Panel for pan style.
- Uniquely designed tongue and groove section joints create weather-resistant seal against rain, snow and wind.
 - Thermal model has tough PVC seal to provide continuous thermal break on all sections, reducing thermal transmissions.
- Tough "U" shaped bottom astragal helps protect against elements.
- 18-gauge hot-dipped galvanized stiles are carried the full height of the sections providing superior strength and durability compared to commonly used hinge pads.
 - Thermal stiles are recessed and concealed.
 - Pan stiles are constructed of single piece so there are no welds to rust.
- Hinges are 14-gauge, hot-dipped galvanized steel for lasting durability.
- Thermal Models have polystyrene insulation bonded to 26-gauge steel skin providing thermal protection to the edge of each section.

Optional Features

- Fade-Resistant Kynar Colors available in White, Beige, Green and Sepia (Thermal models only)
- Polystyrene insulation reduces heat loss and features a laminated High Impact Thermal Styrene (HITS) backer. (Pan Style only).
- Wind Load Certification in accordance with ASTM-E330 and ANSI/DASMA 108-2002
- Keyed or Slide Lock Set (slide lock standard on commercial size doors)
- 10 Ball Rollers (standard on Commercial sizes optional on Residential)
