## CONSTRUCTION

- Strong woodgrain embossed 26 gauge hot-dipped galvanized steel. Pre-finished exterior & interior, then coated with baked-on polyester primer and acrylic finish.
- 1 3/8" section thickness with flush panel design.
- Polystyrene insulation bonded to 26 gauge steel skin, providing thermal protection to the edge of each section.
- Tough PVC seal provides continuous thermal break on all sections, reducing thermal transmissions.
- Uniquely designed tongue & groove section joints create a weather-resistant seal against rain, snow and wind.
- 18 gauge hot-dipped galvanized center stiles are recessed, concealed and carried the full height of the section providing superior strength and durability compared to commonly used hinge pads.
- Aluminum bottom weather seal retainer is corrosion resistant.
- Tough "U"-shaped bottom weather seal helps protect against the elements.
- Hinges are 14 gauge-minimum, hot-dipped galvanized steel for lasting durability.
- Wind load package available.
- R-value = 7.0
